For some days past there have been alarming reports in circulation with reference to the position of affairs in Luzon. On the Sth we published a paragraph stating that it was reported that another rebellion had commenced in the Philippines and that an encounter with Spanish troops had taken place. On the previous day the cable companies had issued notification stating that the Spanish Government land lines beyond Bolingo had been interrupted since Sunday night, 6th inst. and that telegrams were being forwarded to Bolinao to await restoration of the land lines. Yesterday another notification was issued stating that owing to the continued interruption of the Spanish Government's land line between Bolingo and Manila, and the interruption of all postal communication between those pro Plograms for the Philippines are being desper on Hongkong, Amoy, &c. by steamer. which appeared in the Dally Press of the 5th The CHAIRMAN also read the following letter Hongkong, 7th March, 1898.

Dear Sir. We understand that there is a proposal before the Jubilee Committee to buy Craigieburn for the purpose of utilising it as a hospital at the Peak. We should therefore be glad if you would lay this letter before the Committee. You are doubtless aware that for some years past we have been maintaining a small private hospital at the Peak, a hospital which was described before your Committee as a "commercial undertaking." This description is no doubt to some extent true, as we endeavour to make the hospital pay for its maintenance; but it by no means represents the whole truth as a matter of fact for the last three years only there has been a small surplus on the annual working of our hospital. Previously to that it was carried on at a loss. You will ask, "Why then do you wish to keep it up?" Our reason is that we are not allowed to treat our own cases when they are removed to the Civil Hespital (of course, you will understand that in cases of removal to hospital is almost a necessity), and since from professional interest we desire to continue attending cases we have begun with, we were driven to maintain a private hospital, even if it entailed some loss to ourselves. And not only so, but many persons prefer to continue under the treatment of their own doctor, although the nature of their illness compels their removal to a hospital. Now, this is a matter which affects not only curselves, but also the other private practitioners in the colony, since they often send patients of their own to our Peak Hospital, and attend them there themselves, their patients being admitted at the same terms as our own. Now it seems to us that if the Jubilee Committee decide to estr lish a hospital at Craigieburn, which is wholly under the Government doctors, a great injustice will be done to us and the other private practitioners The naval correspondent of the Globe writes: | in the colony; because it seems probable that

The Singapore will be compelled to change their doctors on Of course, if the Jubileo Hospital is restricted sidered to be the only really eligible cases for treatment in a hospital supported by rates and contributions, we have nothing but sympathy for the scheme, and would moreover willingly give our professional assistance if it were required: but at present persons in the upper ranks of society of our own and neighbouring communities, who should be well able to pay the usual fees for themselves, are being admitted to the Government Civil Hospital, less than they would have to pay at a hotel in the colony, and their medical attendance. nursing, and other extras are thrown in free gratis; the difference being made up by the ratepayers; and we feel that it is not right that a hospital on these lines should be started by the Jubilee Committee. It has been stated before your Committee that it is impossible for the Jubileo Hospital to be managed by the Government, and yet allow private doctors to treat their own cases there. We submit that this is not a fact, that such an arrangement is perfectly simple, and that a somewhat similar plan holds good at many of the English county

hospitals, and also in London at hospitals which have paying wards, for instance at St. Thomas'; proof of this can be obtained by looking at their prospectus, where it is stated that doctors not members of the hospital staff can send their cases there and attend them themselves. One other point we would mention, and that is, that seeing that half the subscriptions were made up by the Chinese community, some provision should be made at the Jubileo

Mr. EDE then referred to the desirability of patients being treated by their own private doctors in the hospital. The CHAIRMAN pointed out that that was question that did not appear to come within the province of the Jubilee Committee, although, of course, the matter mentioned by Mr. Eds

appeared to be one in which the public were much interested. On the motion of Mr. EDE, seconded by Ma CRAWFORD, the following Executive Committee was appointed in order to facilitate the conduct of business and to carry on the work which had hitherto been discharged by the General Com-

The Committee then adjourned.

Another full house greeted the second and last performance of "A Village Priest" by the Brough Company last evening, when Sydney Grundy's famous play was received with every mark of appreciation: To night will witness the first production

in Hongkong of Oscar Wilde's most succossful comedy "An Ideal Husband." Writing of the first performance in Calcutta the Brough Company, the Englishman remarks:-"On the whole, the production of "An Ideal Husband" on Saturday may be pronounced the most successful performance Mr. Brough has yet given us. There appears no limit to the perfection of equipment and stage management at his disposal, and Saturespecially to the maternity department, at rates less than they would have to never a hotel in ence. The scene in the third act vas particularly striking. Mrs. Brough's dresses were, as ground usual, magnificent. As to the play itself, it is COMPENSATION FOR DESTROYED INFECTED one affording the Brough Company full scope for the display of the varied talent which it possesses, and the performance showed the company at its best. As a piece of characterization Mrs. Cheveley stands out head and shoulders above the other personages in the play, and Mrs. Brough gave a finished study of this brilliant, dering, plansi- ble schomer. Her light savoir faire in dealing. first with Sir Robert Chiltern, whom she terrerises into premising to speak and vote as she wishes, and secondly with Lady Chiltern, to whom she betrays him, was admirable; while in the third act she portrayed the conflict of smotions which agitates the breast of the balled adventuress with a force and fidelity to nature beyond all praise. Mr. Brough had a congenial part in Lord Goring, the cynical, well-bred, good-natured exquisite of thirty-six, who admits to being two years younger than he is. The deeper note which he sounded in the third act, in the interview with his friend Sir Robert, rang perfectly true, and his sudden transition from grave to gay in the same scene the moment his agistocratic but prosy father appears was

There were sixty-seven case of placed last month, but he was not cortain of the number of smallpox cases. There had been only one case of smallpox during the The Captain Supreintendent of Police thought the disinfection of articles in pawnbrokers' shops was a big and delicate job. Unless

there was a very urgent reason for it he did not think they should adopt it. The Passident replied that the urgent reason was the presence of plague and smallpox i Mr. EDE remarked that hoforeszw many diffioulties in the way, and in view of the fact that

Mr. EDE thought that epidemics of smallpox came in periods. This, he believed, was the maximum number, as it was the third year. The PRESIDENT said there was an epidemic in 1887, another in 1896, and there was one this

The Captain Superintendent of Police enquired if the disease was considered epidemic The PRESIDENT replied that there were more

cases then usual and two districts had been The CAPTAIN SUPERINTENDENT OF POLICE expressed the opinion that with the constant coming and going of Canton people the gain would be inappreciable. It was not a very nice job to interfere with a Chinoman's habits. He had no doubt it could be done, but the game

wee not worth the candle. The PRESIDENT said the Board's duty was to consider whether the scheme was advisable in the interests of public health. As a sanitary measure it was advisable and should be done, Mr. EDE-Theoretically, no doubt, but practically we should, in my opinion, fail. The President-I move that the disinfection of clothing in Chinese pawnbrokers' shops in the city of Victoria shall be periodically carried out in October and April. There are six-

teen shops altogether. The MEDICAL OFFICER OF HEALTH SAID there could be no question about the benefits which might be derived from disinfecting articles in pawnbrokers' shops, but he was inclined to agree with Mr. Ede and the Captain Superinteedent of Police that the advantages would be counterbalanced by the difficulties that would be met. If this schome was carried out at the present moment it would be very like telling the ventilator man to make the window wider. The clothes were a small source of infection and there was a large source of infection in the thousands of coolies who went backwards and forwards from Canton. As there was no medical control over that traffic he was unable to second the resolution. If the Government were exercising all possible control to prevent infection from every source this door also might be closed, but while there were so many other was to postpone action until a future day. The resolution not being seconded fell to the

The PRESIDENT-I may mention that we have information from Mr. Ladds that there

have been no further onses at the farm. Mr. Eng asked if the burning of the carcase of the last animal affected had been successful. The SECRETARY, at the request of the President, read the following letter :-Government Offices, 10th March, 1898. The ATTORNEY-GENERAL-Please pass to President of Sanitary Board. I am of opinion that on reading the by-laws and the Ordinance 17 of 1887, on which alone their validity depends, the Sanitary Board has no power to prevent a man leaving a place declared to be infected with cattle disease. To enable the Board to possess such power further legislation would be necessary.
